

VSTECS Appointed Exclusive Distributor for Singapore and Indonesia

Singapore and Jakarta – 10 October 2025 – LT ZERO, a Pan Asian leading provider of Data Management technology and solutions in collaboration with BDT Media Automation GmbH; a global leader and manufacturer for Data Storage System; designed to help enterprise scale and retain new data growth in today’s AI for long term learning and 100 years beyond archival for clients across Asia Pacific, today announced its appointment of VSTECS as the exclusive distributor for Singapore and Indonesia.

Through this strategic partnership, VSTECS will bring LT ZERO’s advanced data management and hyperscale solutions to enterprises across Singapore and Indonesia, empowering organizations to harness the full potential of their data with greater efficiency, scalability, and security.

This newly mint Orion MC6 high-density archival storage coupled with advanced software is for Hyperscale cloud providers and organizations with massive multi geography data set needing to securely store and protect hundreds of petabytes of data. It provides cost-effective per terabytes of storage, ransomware protection and a greener sustainable carbon footprint. LTZero MC 6 is generally available today.

“We’re excited to collaborate with VSTECS, whose strong channel network and proven expertise in enterprise technology distribution make them an ideal partner to accelerate LT ZERO’s growth in Singapore and Indonesia. This partnership will empower more organizations to modernize their data infrastructure with confidence.” Said Mr. Kelter Choo, Regional Director – Asean, LT ZERO.

“The rapidly evolving digital landscape today requires data infrastructure solutions that can not only scale but also deliver unparalleled performance and affordability,” said Sebastian Chong, CEO, VSTECS Singapore and Indonesia.

“Our collaboration with LT ZERO will enable us to meet these growing demands by delivering next-generation data management solutions that meet the evolving demands of digital transformation and artificial intelligence. With LT ZERO’s solutions, cost-efficiency and performance are also made available for the modern enterprise,” Chong added.
